Founded in 1955, **DORCO** is a South Korean razor manufacturing company that is leading the world of shaving today. Under the brand slogan “Make It a Good Start”, we aim to provide our customers highest quality of products and create the best shaving experience together.

Currently, we have “PACE” brand for men and “EVE” brand for women. We offer a wide range of products – from disposables to systems – to suit everyone’s needs. As a result, customers from more than 130 countries are using **DORCO** razors and the number is still growing.

Our venture never stops – it only keeps moving forward. Investment in R&D is always ongoing to develop more advanced technologies. Our own eco-friendly product is on its way to meet the customers very soon and there are just so many more to come! So we hope you enjoy the razor journey with us. Welcome to the **DORCO** family.

Portable Razors, Cutlery, Utility Knives

## 1) Curved Blade

Unlike welded blades, our blades are curved, allowing accurate shaving with more precision blades. What's more, this construction allows for an open-flow blade cartridge, making the razor easier to rinse.

DORCO Blade

Other Blade

## 2) Micro Span

Thanks to our blades which are formed into angle, not welded, we can then position them very close together. We call this 'Micro Span' technology. This helps reduce the amount of skin that can bulge between them, for a safer, smoother shave with less irritation.

DORCO Blade

Other Blade

## 3) Common Docking System

You can try different blades by refilling any of our blade cartridges to fit your razor handle whenever you want.

## 4) World's First 6 Blades & 7 Blades

Micro-positioned 6 and 7 blades deliver a closer and precision shave as each blade pulls more hair through the razor.

## Flagship Product

INTRODUCTION

**DORCO PACE 6 PRO 3D MOTION**

**SXD2100**

### 3D MOTION PIVOT

Our coil spring movement technology allows the cartridge to follow the contours of your skin for a smoother and closer shave.

### Interchangeable Docking System

Any of our cartridges will fit our handles, allowing mix and match.

### Ergonomically Designed, Trendy Handle

Weight-balanced handle allows customers to experience the most comfortable shaving possible at all angles, and the balance between micro pattern and metal frame provides the most trendy design.

## Flagship Product

INTRODUCTION

**DORCO EVE 5 Motion**

**LFVA6000**

### 3D Motion for All Contours

Coil spring movement allows the cartridge to follow the contours of your skin for a closer and more comfortable shave.

### Lubricating Strip with Vitamin E & Aloe vera

Allows the blades to glide over the skin for a comfortable shave.

### Flexible Head

Allows for cartridge rotation for a complete shave of all body areas.
